

Browns Plains State High School Trade Training Skills Centre

Location Browns Plains, QLD
Sector Education
Value \$2.5 million
Client QLD Government

The new Trade Skills Centre at Browns Plains State High School sets out to provide opportunities for students to learn vital trade skills before they leave High School, and is a QLD Government initiative to invest in the future of our children.

The project involved the dismantling and relocation of existing sheds on the site, new concrete paths around and to the building, the demolition of existing retaining walls and concrete slabs, and the construction of a warehouse training area to include:

- Training area
- Theory room
- Office
- Kitchen and amenities
- First aid room
- Storage areas
- A new 6m high automotive vehicle servicing area including car hoist, tyre changer and wheel balance
- Workshop area

The Trade Skills Centre will deliver qualifications in the automotive industry to address the skills shortage of mechanics, vehicle body builder, vehicle painter and vehicle trimmer. De Luca are proud to be involved in the construction of such an important project that offers immense value to the Logan community and surrounding businesses.

Browns Plains Trade Skills Centre

6 metre high purpose built workshop

Amenities, storage and first aid room

The future is ours to build
