Brisbane Airport Corporation

Location Brisbane Airport, QLD
Sector Commercial
Value $500k - $30 Million
Client Brisbane Airport Corporation

De Luca is fortunate to have been part of the growing landscape at the Brisbane Airport, home to one of Australia's most important growth hubs. Investments are being made by Brisbane Airport Corporation at the international and domestic airport terminals as well as land side – where the majority of De Luca's projects reside.

De Luca has undertaken a variety of projects at the Brisbane Airport, ranging from $500k - $30 million and including warehouse upgrades, renovations to commercial warehouses, business precinct constructions, and smaller projects in between.

Projects Include:

- Menzies Aviation warehouse
- G20 demountable construction project
- Banksia Place property amenities upgrade
- Warehouse upgrade and renovations to building 212
- Construction of the Hellman warehouse extension
- Air Freight Centre 4 (AFC4) Stage 1 & 2
- Upgrades to the Domestic Terminal external shade structure
- Australian Air Express 4020 m2 warehouse and office
- Australian Air Express stage 2 - 3000m2 warehouse and office
- Fedex 2500m2 warehouse and office

De Luca is looking forward to continuing our great relationship with Brisbane Airport Corporation, as part of a selection of the 100+ construction and development projects underway or in planning stages. De Luca is well equipped to continue to work alongside Brisbane Airport Corporation, offering teams with specialised knowledge and vast experience of Brisbane Airport projects.
